Jagdish Suryawanshi

Data Analyst

8459606268 | jagdishsuryawanshi632005@gmail.com |linkedin ID | Portfolio | Github

Professional Summary

Detail-oriented **Data Analyst** skilled in **SQL, Python, Power BI, Excel, and ETL Workflows**. Experienced in **Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Development, and KPI Reporting**. Capable of analyzing **Large Datasets**, identifying **Data Trends**, and transforming raw data into **Actionable Insights** to support **Data-Driven Decision-Making** and improve business performance.

Technical Skills

- **Programming & Data Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL
- **Data Visualization & BI:** Power BI, DAX, Advanced Excel, Interactive Dashboards
- **Databases:** MySQL, MySQL Workbench, Database Management
- **Data Processing:** Data Cleaning, Data Transformation, ETL Workflows, Data Validation
- **Data Analytics:** Exploratory Data Analysis (EDA), Statistical Analysis, KPI Tracking, Trend Analysis
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, VS Code
- **AI Tools:** ChatGPT, Claude, AI-Assisted Data Analysis, Prompt Engineering

Education

Bachelor of Computer Applications (BCA) May 2026
Kavayitri Bahinabai Chaudhari North Maharashtra University Jalgaon

Professional Experience

Greateway Software Pvt. Ltd. **May 2026 – Present**
Data Analyst Intern *Pune*

- Extracted and analyzed business datasets using **SQL Queries** to identify **Data Trends, Patterns, and Key Performance Indicators (KPIs)**, improving data retrieval efficiency by **25%**.
- Performed **Data Cleaning, Data Transformation, and Data Validation** using **SQL and Excel**, improving data quality and achieving **98% data accuracy**.
- Developed interactive **Power BI Dashboards and Reports** monitoring **KPIs, Business Performance, and Operational Trends**, reducing reporting time by **30%**.
- Conducted **Exploratory Data Analysis (EDA)** using **Python, Pandas, and NumPy** to identify patterns, analyze trends, and generate **Actionable Business Insights**.
- Streamlined **Reporting Workflows and Report Automation** using **SQL, Excel, and Power BI**, reducing manual reporting effort by **35%**.

Projects

Banking & Loan Analytics | Github : Link **2026**
Technologies: Python, MySQL, Power BI, Excel

- Analyzed **100,000+ loan records** using **MySQL and Excel** to evaluate **loan applications, approval trends, customer segmentation, and repayment performance**.
- Developed interactive **Power BI dashboards** using **advanced DAX measures** to monitor **loan approval rates, average loan amounts, overdue loans, and credit risk metrics**.
- Delivered **6+ actionable insights** and **4+ data-driven recommendations** on **loan demand**, **customer profiles**, and **repayment risk** to support **business decisions**.

Ride Booking & Mobility Operations Analytics | Github : Link **2026**
Technologies: Python,MySQL, Power BI, Excel

- Performed **data cleaning**, **EDA**, and **data analysis** on **1M+ records** across 5 tables using **Python** and **MySQL** to evaluate **booking demand**, **cancellations**, **driver availability**, and **payment performance**.
- Solved **45+ business questions** using **SQL** (**joins**, **CTEs**, **window functions**) and built an interactive **Power BI dashboard** with **DAX** measures tracking **KPIs** such as completion rate, cancellation rate, average fare.
- Delivered **7+ actionable business insights** and **5+ data-driven recommendations** to improve **booking success rate** and **customer experience**.
