CAREER SUMMARY

Recent BCA graduate with a strong foundation in Python, SQL, Data Analysis, and Machine Learning. Skilled in using Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn for data cleaning, analysis, visualization, and predictive modeling. Familiar with Git & GitHub, HTML, CSS, and JavaScript, with hands-on experience through academic and personal projects. A motivated Data Science fresher eager to apply analytical and problem-solving skills to real-world data and contribute to data-driven solutions. Detail-oriented data analyst skilled in Python libraries including Pandas and Matplotlib. Proven ability to conduct exploratory data analysis, identifying trends in diverse datasets to drive insights.

EDUCATION

Bachelor of Computer Applications (BCA)
Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon
CGPA: 9.23/10

2023 – 2026

TECHNICAL SKILLS

- Programming: Python (Basics)
- Python Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
- Database: SQL
- Web Technologies: HTML, CSS, JavaScript
- Tools: Git, GitHub, MS Excel

PROFESSIONAL EXPERIENCE

Fusion Software Institute
Intern // Pune, India (Remote) // July 2026 to Current

PROJECTS

Frontend Development projects :-

- Built a responsive Netflix Clone using HTML, CSS, and JavaScript, featuring a modern UI, movie browsing, and responsive design.
- **Developed a Hotel Management System to manage room bookings, customer details, check-ins/check-outs, and hotel operations efficiently.**
-

Exploratory Data Analysis projects :-

- IPL Data Analysis: Performed exploratory data analysis (EDA) on IPL datasets to identify team and player performance trends using Python, Pandas, Matplotlib, and Seaborn.
- Titanic Data Analysis: Analyzed passenger data to identify survival patterns based on gender, age, passenger class, and other factors, using Python and visualization techniques.
